

Fio as one of BlockVision 2019's featured panel discussion at the Japan Blockchain Conference

Yokohama, January 30, 2019 — Fio is one of the two new blockchain ventures that will be discussed about in a panel under the BlockVision 2019 event presented by Forbes CryptoMarkets and InfiniumOne Capital at the Japan Blockchain Conference.

FiO is building a decentralized ecosystem economy on blockchain and AI technology, where consumers retain ownership over their valuable data, and merchants have access to a common pool or qualified leads. The project is currently in development, and it is scheduled to launch in Q2 2019.

At the event, FiO will be introduced by Theodore Tse, executive director, and the panel will feature Shoichiro Tanaka (CEO of GFX); Masaya Uchino (Attorney of ZeLo); and Celeste Kwon (COO of Dominus); Timothy Lewis (Founder of Ikigai); Kevin Lee (CEO of Keypair).

The BlockVision 2019 event is hosted by Forbes CryptoMarkets, the go-to platform for market insights and research on digital assets; and by InfiniumOne Capital, a global investment and technology management company that focuses on the applied use of blockchain and Web3.0 projects.

About Fio Technology Limited

Fio Technology Limited is a Hong Kong-based company that operates Fio, the blockchain-powered, decentralized ecosystem economy with AI technology. The platform will allow consumers more autonomy over their own data, while merchants will be provided with more meaningful leads for businesses. For more information, visit www.fio.one.

Safe Harbor Statement

This release contains certain "forward-looking statements" relating to the business of Fio Technology Ltd. ("Fio"), which can be identified by the use of forward-looking terminology such as "believes," "expects," "anticipates," "estimates" or similar expressions. Such forward-looking statements involve known and unknown risks and uncertainties, including business uncertainties relating to government regulation of our industry, market demand, reliance on key personnel, future capital requirements, competition in general and other factors that may cause actual results to be materially different from those described herein as anticipated, believed, estimated or expected. These forward-looking statements are based on Fio's current expectations and beliefs concerning future developments and their potential effects on the Company. There can be

no assurance that future developments affecting Fio will be those anticipated by Fio. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond the control of the Company) or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by such forward-looking statements. Fio undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.
